2026 SAMPLE BALLOT

Welcome to our consummately user-friendly, large-print sample ballot for Colorado's October/November 2026 Mid-Term Election. As a value-added service to our clients, we designed this tool to help you, your family, colleagues, and friends — regardless of political affiliation — research and consider the many candidate and ballot-question choices we face.

This year's ballot is long — a cost of Democracy. In that context, **three minutes** of prep time will simplify and speed up your voting experience.

Few of even the most civic-minded Coloradans commit to memory all the various districts in which they live and vote. So, we've made it quick and easy to identify each voting district that applies to your household this election. Let's get started...

Step 1: Click the following Colorado Secretary of State's [Find My Voter Registration](#) link. Type in your name, date of birth, zip code, and click '***I am not a Robot.***' Tap the '**Search**' key and wait a *moment*...

Step 2: Click the '**County & District Information**' option, and jot down each of the following districts:

- My **Congressional District** (CD): _____
- My **State Senate District** (SD): _____
- My **State House District** (HD): _____
- My **State Board of Education District**: _____
(Same as your Congressional District.)
- My **CU Regent District**: _____
(Again, same as your Congressional District.)
- My **RTD District**: _____
(*Note: RTD districts apply only to voters in Adams, Arapahoe, Boulder, Broomfield, Denver, Douglas & Jefferson Counties.*)

Step 3: Alternatively, contact the [Election Division](#) of your County Clerk & Recorder's Office. They will happily share with you all applicable district numbers/letters for this election. Jot down each district number/letter in the designated spaces above and proceed to the first contest on page four of this sample ballot. Let's get started!

(Note: On pages 29-43, each statewide ballot measure *title* links to the Colorado Legislative Council's strictly non-partisan Blue Book analysis.)
